Soft skills

- Communication
- Teamwork
- Adaptability
- Self-direction
- Conflict resolution
- Patience

Skills

- TypeScript, JavaScript, Webpack
- .Net, ASP.Net, C#, Blazor
- React.js, Angular, D3.js
- SQLServer, IBM Informix, PostgreSQL, Firebase
- Azure, AWS, GCP
- Capacitor.js
- Docker, Podman, Kubernetes
- Antigravity, Power BI, Looker

Experience

Full-Stack Engineer

Akvelon Inc Bellevue, USA. Jan 2024 - Now

<https://akvelon.com/>

Responsibilities:

- Code reviews to uphold quality standards and ensure to meet accessibility and inclusive application requirements.
- Developed solutions for web applications, closely aligning them with user requirements to improve user satisfaction.
- Advised UI designers on technical aspects in projects to avoid non-compliance with technical constraints.
- Managed the deployment and release processes for projects, ensuring smooth project delivery.

Results:

- Built Charticulator into different BI systems thereby increasing the user audience.
- Tested 300+ Power BI visuals for security issues, improve quality and increase user confidence in the product.
- Developed security and reliability recommendations for 20+ Power BI visual to reduce certification timelines three times.

Software Development Engineer

Akvelon-Georgia Tbilisi, Georgia. Mar 2017 - Dec 2023

Software Development Engineer

Akvelon-Kazan Kazan, Russia. Feb 2017 - Feb 2022

Lead Developer

BARS GROUP Kazan, Russia. Jan 2013 - Jan 2017

<https://bars.group/>

Responsibilities:

- Lead development process as a project manager, ensuring project milestones and goals were met in time.
- Breaking down the solution into discrete development tasks, streamlining the project's development.
- Validating development for accuracy, reliability, and alignment with project objectives, delivery of reliable solutions.
- Assessed and interpreted technical requirements for various projects, facilitating accurate project planning and execution.

Results:

- Improved the architecture that increased reused code up to 25%.
- Created a process for developing and testing new features in a test environment that accelerated the release of new versions.
- Utilized Docker Compose to migration and database schema updates, leading to a significant enhancement in product quality.

Certifications

[Professional Cloud Developer Certification](#) (Google), Dec 2025 - Dec 2027

[Power BI Data Analyst Associate](#) (Microsoft), Oct 2021 - Oct 2024

[Looker Certified LookML Developer](#) (Google), May 2022 - May 2024

Education

[TU Ilmenau](#)

Master's degree (2015 - 2016)

Research in Computer & Systems Engineering

[Kazan National Research Technical University named after A.N.Tupolev - KAI](#)

Master's degree (2014 - 2016)

Computer science & engineering
